EDUCATION

Netaji Subhash Engineering College <i>Bachelor of Technology in Information Technology (GPA: 7.93)</i>	Kolkata, West Bengal 2022 – 2026
Loyola High School <i>Intermediate (Percentage: 84.2%)</i>	Patna, Bihar 2020 – 2021
St. Karen's High School <i>Matriculation (Percentage: 84%)</i>	Patna, Bihar 2018 – 2019

WORK EXPERIENCE

Ardent Computech Pvt. Ltd. <i>Web Development Intern</i>	Kolkata, West Bengal Mar 2026 – Apr 2026
--	---

- Completed project-based industrial training focused on real-world web development workflows practices.
- Worked on designing, developing, testing, and deploying responsive web applications using modern web technologies.
- Developed and integrated frontend components to create user-friendly and responsive web interfaces.
- Worked with backend APIs and implemented data exchange between frontend and server-side applications.

TECHNICAL SKILLS

Languages: Java, Python, HTML, CSS, JavaScript
Backend: FastAPI, REST APIs, SQLAlchemy
Databases: PostgreSQL, MySQL, SQLite
Core Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), CRUD Operations
Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA

PROJECTS

FastAPI Blog Application <i>Python, FastAPI, SQLAlchemy, PostgreSQL, Pydantic</i> GitHub	July 2026
– Developed a RESTful blog backend using FastAPI to manage blog posts through structured API endpoints. – Implemented complete CRUD functionality for creating, retrieving, updating, and deleting blog posts. – Organized API routes and database logic using a modular backend structure to improve scalability.	
University Mapper <i>Python, PostgreSQL, BeautifulSoup, Requests, psycpg2</i> GitHub	Sept 2026
– Built a data pipeline to map college programs into a PostgreSQL database using a normalized university-program schema. – Developed a Python scraper using Requests and BeautifulSoup to extract live B.Tech program.	
Train Ticket Booking System <i>Java, Gradle, JSON, BCrypt</i> GitHub	Apr 2026
– Developed a CLI-based train ticket booking system with user authentication, train search, seat booking, and cancellation features. – Implemented JSON-based data persistence using Jackson to store and manage user, train, and booking information.	

CERTIFICATIONS

Java Certification – HackerRank | [View Certificate](#)
Python Certification – HackerRank | [View Certificate](#)
SQL Certification – HackerRank | [View Certificate](#)

ACHIEVEMENTS

College Cricket Head: Led the college cricket team in inter-collegiate tournaments, demonstrating leadership, planning, and team management.
Problem Solving: Solved 150+ DSA problems on platforms like LeetCode and CodeChef, strengthening logic building and algorithmic thinking.
